

The **performance** you'd expect from Solahart

WHY SOLAHART PV?

At Solahart we pride ourselves on standing out from the competition:

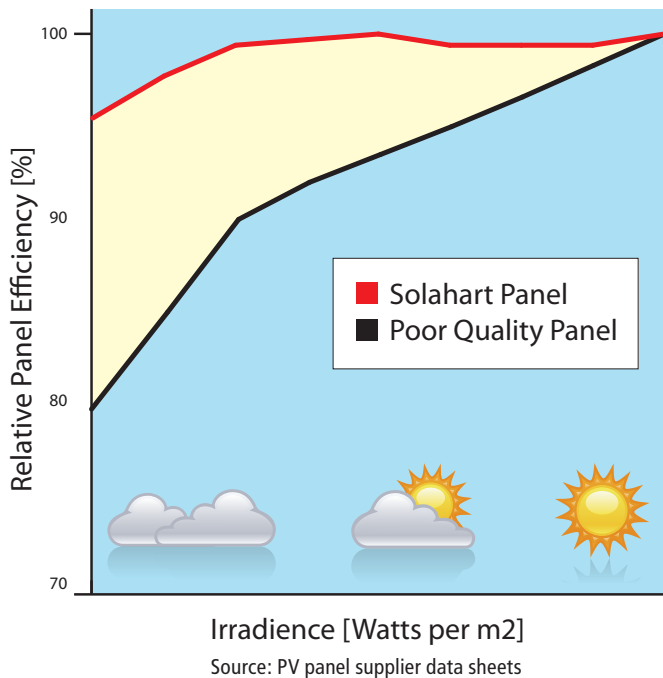

- ✓ In the solar business since 1953.
- ✓ Solahart systems are designed and engineered with every component carefully selected to ensure optimum performance and protection.
- ✓ Selection of products that meet Solahart's stringent specifications.
- ✓ Training of Solahart installers to ensure safe, high quality installations.
- ✓ Peace of mind – you are dealing with the Solahart professionals.

QUALITY & EFFICIENCY

- ✓ Independently rated as one of the highest performing panels.
- ✓ Every Solahart cell is tested and then selected to meet our high standards and specifications.
- ✓ Solar glass with anti-reflection surface treatment.
- ✓ Multi-crystalline cells.
- ✓ Double layer highly resistant backing sheet to protect cells.
- ✓ Designed for maximum power output and optimized for all weather conditions.

HIGH ENERGY YIELD, EVEN IN LIMITED SUNLIGHT.

UNPARALLELED SAFETY STANDARDS

- ✓ Individual earthing of modules for additional safety.
- ✓ Solahart only uses genuine solar cable connectors with safety locking devices.
- ✓ Solahart systems also incorporate roof top circuit breakers / isolators to provide extra safety and protection.

EFFICIENT INSTALLATION

- ✓ Solahart dealers and installers live in your neighbourhood and can provide the right advice when you need it.
- ✓ Quality accredited installers trained by Solahart who provide you with an installation checklist on completion of the job.
